Mobilize For Civilian Defense

NAME WARDENS

Proclaimed by the Office of Civilian Defense to be the most vital part in defending the community against enemy air raids and preventing disaster, the chief air raid wardens for Daly City's 23 precincts were named, last week, and their aides were mobilized.

Placed under the supervision of Councilman Julius Twesten, the wardens went to their posts first when Friday night's 2½ hour blackout was ordered by the army. Twesten, in taking command of the wardens, delivered instructions for wardens to refrain from any unnecessary show of authority, to carry out orders as courteously, but formly, as possible. Twesten further warned that any warden who is reported to be discourteous to residents will be replaced.

The Civilian Defense council made an urgent request that the residents of the community become acquainted with the name of the chief warden in the precinct in which they live, and report any violators of the blackout order to the warden rather than to the police department. This is to relieve the burden on the police department in answering the numerous telephone calls during a blackout. There is an air raid warden in every block, and there is a chief air raid warden in every precinct of the city during blackouts.

Following is the list of chief air raid wardens: first precinct, Claude O. Gimle, 635 Hanover street; second precinct, Eugene Norton, 155 Winchester street;

Issue Local Air Raid Instructions

Since the numerous blackouts ordered by the Fourth Interceptor Command in the past ten days have brought a firm belief of the presence of enemy planes, the Daly City Civilian Defense council has drawn up a set of instructions for residents in the event of an air raid alarm.

It was believed by the committee that by living up strictly to the rules, much disaster could be prevented, and the residents would be avoiding possible injury, to a great extent.

Full details and description of Daly City's official air raid alarm are in the first two instructions. To avoid confusion of sig-

Schools Prepare To Protect Pupils

With full realization of the grave crisis in the nation, Daly City schools this week translated into action a program in preventing danger to the pupils of the schools in any possible emergency. School authorities, with the assistance of the faculty members, have enforced instructions which have been received by the schools from defense authorities.

James Ferguson, principal of Jefferson Union high school, authorized drills in air raids, fire drills, and evacuation. A set of signals for all emergencies was set up for use in the high school building. All evening activities at the high school have been discontinued for the duration of the emergency, except the Americanization class, which concludes Thursday night. Night school will

To Register Red Cross Workers

Registration of volunteers for Red Cross duty will open tomorrow at 10 a. m. at Daly City Theatre hall, according to Mrs. Horace Fellows, town chairman for Daly City. The hall, located above the theatre, has been donated to the Red Cross for this project by J. W. Marchbank.

The signing of applicants will continue tomorrow until 4 p. m., and it is urged that everyone interested in the Red Cross workshop register. Theatre hall will serve as the center of the production activities, which will consist of sewing and knitting clothing for service men, and Mrs. Fellows announced that as soon as applications had been signed, the time for classes would be announced, according to the number of applicants.

Sewing machines are urgently needed by the Red Cross organization, and Mrs. Fellows asked that anyone who could lend a sewing machine to the project notify her at Theatre hall. Machines will be called for by the Red Cross, and any type of machine is acceptable.

Heading the production committee is Mrs. Julia Jordan, 576 Bellevue avenue, with full

Council Accepts Bids For Firehouses

In an adjourned meeting of the city council, Monday night, the City of Daly City accepted a bid from Harrison and Dorman company to construct two new firehouses.

The proposal was accepted to the amount of $15,125, and the two new firehouses are to be constructed at the corners of Roosevelt and Peoria streets, and Santa Barbara and Parkview avenues.

The Harrison and Dorman representative informed the city council that construction would begin soon, and the buildings were estimated to be completed within ninety days.

Library To Have New Hours During Emergency

Mrs. Jean O'Rourk, who is in charge of the Daly City library, 6351 Mission street, announced today that during the emergency new hours would be in effect. On week days the library will be open from 11:30 a.m. to 6 p.m. Saturday's hours, 1 p.m. to 5 p.m. remain the same.

In making the change, which eliminated evening hours, Mrs. O'Rourk explained that a large number of small children use the library during after-dark periods. In view of blackouts and possible air raids, Mrs. O'Rourk felt

DEFENSE COUNCIL NOW LISTING VOLUNTEERS

Mobilization of nearly eight hundred volunteers was Daly City's answer to civilian defense as registrations continued to pour into headquarters at the city hall, this week. Chairman Arthur J. Bodien and the Civilian Defense council were busily engaged in classifying the volunteers as names were transferred from registration headquarters to Bodien's office.

Headquarters for registration were set up in the basement of the city hall, and Mrs. Ethyl Dorn offered her services to aid the volunteers in filing applications.

Acclaimed by San Mateo county defense authorities as one of the most progressive, the local Civilian Defense council gradually began to take shape this week as the entire program was disseminated into sources of preparedness for a possible disaster.

Seven sources of disaster preparedness make up the main classes of the program, and the volunteers have been classified to accomodate these classes, since the volunteers were classed according to the type of work for which they are best fitted.

Heading the classifications, the Civilian Defense council named 23 chief air raid wardens, one for each precinct in the city. Julius Twesten, member of the city council, was named senior air raid warden, to supervise the duties of the air raid wardens. In turn, the chief wardens each selected a number of wardens to assist them, choosing from a list of 254 wardens. A total of seventy female wardens are also on file at headquarters.

Air raid wardens, the first division of the local program to go into action, were ordered to their posts Friday night at 7:23 p. m. when the order for blackout came to the Daly City Police department.

Inside of five minutes the city was in darkness, and within twenty minutes the blackout was pronounced 100 per cent.

Daly City Answers Call For Funds

Daly City responded to the American Red Cross War Emergency drive with an over-subscription of their quota when civilian defense workers of the city, despite a rainstorm, canvassed the city. An amount of $1901.-12 had been reached, Monday evening, in Daly City.

Chief air raid wardens with their aides were assisted by a number of volunteers in collecting the fund.

Arthur J. Bodien, chairman of the Civilian Defense council, sent a telegram to President Roosevelt, Monday, advising the chief executive of Daly City's response to the drive.

A telegram was also sent to H. W. Regan, Burlingame, chairman of the San Mateo county chapter, Red Cross War Emergency Drive, informing him of Daly City's ov-

Street Car Runs Away In Blackout

'Tis often been said that the captain of a ship in distress is the last to leave his post. But, during the excitement of Friday's blackout, the conductor of the Market Street Railway car didn't even get a chance to board his "ship" at the top of the hill before the venerable trolley car, in some unknown manner, was loosed from its "moorings," and proceeded merrily down a pitch dark Mission street toward Colma.

But Motorman C. J. Smith and Mrs. Margaret Minaberry, 22 Hillcrest drive, were aboard to take the surprise ride.

The streetcar was followed by Leonard Steuhler in the ambulance of the Peninsula Ambulance service until the trolley was knocked off the top of the streetcar at the Southern Pacific underpass, and crashed into the front of

TRAFFIC COURT

Fahey Presides At First Session

Presiding over traffic court, Friday, for the first time as city judge, Judge John J. Fahey jr heard a case involving a Japanese gardener, Daishiro Kurache, after Officer George Savage made an arrest of Kurache on a charge of reckless driving. The arrest came as a result of an automobile accident, December 3, at Mission and Market streets in Daly City.

Represented by counsel, Kurache entered a plea of guilty, whereupon his attorney advised the court that the defendant's financial assets had been frozen in American banks since the outset of the war with Japan. In summing up the case, Kurache's attorney read a worn document of Kurache's from the county of Monterey stating that Kurache had served his country, America, in the last world war overseas.

On the basis of the testimonies of the defense attorney and Officer Savage, Judge Fahey fined the defendant $25, $10 suspended, and the balance to be paid when Kurache was able.

"I might add in passing," said the new city judge, "that a similar case of an American in a Japanese court would probably not receive the same consideration."

Another traffic offender, Basil R. Bedford, Berkeley, was fined $100, $25 suspended, on a drunken driving charge that was a second offense.

Irving C. Foster, San Francisco, paid a fine of $50 for reckless driving through Daly City streets.

Frank George Pawlee, San Francisco, was fined $6.50 on two charges, speeding and failure to use a muffler on his machine.

Judge Fahey issued three $5 fines for speeding violations: Harriet R. Nelson, Palo Alto; Fred Lee Smith, San Francisco; and Frank H. Arias, San Francisco.

George Kessler, San Francisco, was fined $5 for driving left of the center line.

Speeding brought a fine of $3.50 to John F. Barbaria, San Francisco.

George Manley jr., San Francisco, paid a fine of $3 for violation of the speeding law.

Richard Levin, San Francisco, was fined $2.50 for speeding.

Alex Goldberg, San Francisco, paid a fine of $2 for disregarding a signal.

Failure to stop at stop signals netted a fine of $1.50 to each of the following: Lee A. Wells jr., San Francisco; Michael J. Caballero, San Francisco; Charles Ayre, San Francisco; and Antone B. Cazet, San Francisco.

John P. Hughes, San Francisco, paid a $1 fine for disregarding a signal.

Equal Billing

George and Edward Shetler have succeeded in getting equal billing until the very last day of their high school career. Twin athletes and scholars, they co-starred in track, baseball and basketball for four years in Woodhull, Ill.

be discontinued, as will the WPA Recreation basketball games in the gymnasium.

In the grammar schools, R. L. Crane jr., district superintendent, will supervise a course of instruction in first aid for teachers to begin the first week in January.

With the county board of education recently adopting a first aid course into the curriculum of the elementary schools, Crane has recommended the standard course which he will soon begin, for all elementary faculty members. Crane estimated 50 per cent of the elementary teachers to have completed the course in previous instructions.

Our Lady of Perpetual Help school will follow the same instructions for evacuation and air raids as is followed by the public schools.

It was urged by school officials that parents should not attempt to pick up their children at the schools since it would only add to the confusion in case of an alarm.

In assuring parents of the safety of their children, teachers were instructed to supervise the drills for emergencies. Drills in evacuation and fire drills were being installed in the programs of all schools, this week.

Ronald Colman Stars In Vivacious New Comedy

Hailed as one of the brightest comedies of the year, Ronald Colman's new starring vehicle, "My Life With Caroline," revolves around the casual romances of a neglected wife and the ingenious strategy by which her husband thwarts her intended elopements and holds his home together. The picture opens at the Daly City theatre, tomorrow.

Anna Lee, lovely and vivacious British star, heads the featured cast as the wife, with Charles Winninger as her self-indulgent father and Reginald Gardiner and Gilbert Roland as two of her admirers.

Because of the pressure of business, Anthony Mason can't spend as much time as he'd like with his wife Caroline. And she, living at various expensive resorts with her pleasure-seeking bon vivant of a father, finds herself falling in love with handsome young millionaires who have no trouble in convincing her that she's terribly misunderstood and unappreciated.

At an Idaho ski resort, Caroline has fallen in love with a rich young Argentine and is planning to divorce Anthony at once when Anthony arrives on the scene.

Aware of the scheme, Anthony pays assiduous attention to Caroline and adroitly tosses monkey-wrenches into the romantic works of the plot, with the result that Caroline sees the light and is reunited with her understanding spouse.

The role of the tolerant and comprehending Anthony gives Colman one of his finest parts to date, while Miss Lee, an outstanding favorite on the British screen, makes her American debut as the vacillating but charming Caroline.

Winninger also has an exceptionally good role as the cynical parent, and Gardiner and Roland offer notable characterizations as Colman's successive rivals.

Companion feature on the new bill will be "Bad Lands of Dakota" with Richard Dix.

A Peaceful Gesture--Maybe

Ronald Colman (the husband) is merely emphasizing his point. But Reginald Gardiner (as the rival for the wife's affections) wonders whether there's anything significant about the way that dagger sticks out at him. One of the many hilarious scenes in "My Life With Caroline," the current Ronald Colman starrer, which presents Anna Lee, the English beauty, in her first American-made picture. The clever comedy opens tomorrow at the Daly City theatre.

Low Death Rate

The census bureau notes that the Netherlands had the lowest death rate of any country in the world—until the German invasion. The rate was 8.7 deaths to each 1,000 population. This compared with 11.5 for the United States in 1936.

This Means YOU!

To the residents of the Twelfth Naval District:

You are violating the security of the United States and endangering the lives of your fellow-Amercians if you fail to observe these precautions:

1. DON'T discuss movements or concentrations of our Navy or merchant ships.

2. DON'T discuss new military techniques or new weapons.

3. DON'T discuss defense plant production capacities.

4. DON'T discuss movements or concentrations of Naval personnel or Marines.

5. DON'T discuss Naval shore construction projects.

THIS IS A MODERN WAR. The enemy will utilize every conceivable means to obtain information on these subjects.

His spies will be listening for the stray spoken word, watching avidly for the chance clue in the printed story, listening attentively for the radio announcer who will blunderingly reveal, in one innocently sounding phrase, enough information to sink a troop packed transport or blast a shipyard.

THIS IS A TOTAL WAR, and every civilian is in it. It is the responsibility of every civilian to KEEP FROM THE ENEMY AND HIS AGENTS that information they will be constantly seeking.

THIS IS A HARSH WAR. There is an ESPIONAGE ACT which provides drastic wartime penalties for divulgence of information of these types to the enemy.

Before you speak, consider: Could the enemy translate this information into a torpedo attack on one of our ships, or a bomb attack on a defense plant? If he could, DON'T DIVULGE IT.

THINK BEFORE YOU TALK.

PHYSICAL FITNESS

Late one afternoon I flew over to Philadelphia to take part in the beginning of their National Defense week. Mr. John Kelly was in charge of the evening. There had been street races in the afternoon for boys, and, while I was there, the prizes were given out to several individuals and teams.

They had some wonderful high school bands, as well as police and firemen's bands. I had to catch the 9:15 plane back to Washington, so I missed the greater part of the exhibition, but the glimpse of what the young people could do was a great satisfaction. I felt there was potential strength there which could be translated into sound and healthy bodies as they grew up.

I feel that our physical fitness program should serve to awaken interest among young people and their elders to look into all available sources of material.

Last-Ditch Fight To Check Death

With the traffic toll this year running 17 per cent ahead of last year in the United States, public officials, safety leaders and individuals, as well as 130 national organizations already enlisted in the Emergency Safety campaign, are rallying for a last-ditch fight to cut deaths during the hazardous holiday season.

December normally is the deadliest month of the year on the highways, with more darkness, bad weather, slippery pavements and the rush and conviviality of the season contributing to an upsurge in accidents.

In December last year, twelve people died as the result of traffic accidents in San Mateo county. So far this year the county's total number of fatalities is seventy. In 1940 the total was 77. With safe practices in driving and walking this distressing record can yet be decreased.

Timossi Sees New Trend In Buying

Curtailment in automobile production has brought about a very definite change in the buying habits and attitudes among motorists, according to A. L. Timossi, Mission Auto company, Chrysler-Plymouth dealer here.

"We have noticed during the past few weeks," declared Timossi, "that the average motor car buyer is not nearly so impressed with gadgets and glitter, but is more concerned with basic engineering features, types of materials used, and other factors that relate to long life, maintenance and operating economy.

"To my way of thinking," continued Timossi, "this is a very sound buying attitude. After all, a motor car is a substantial investment, and during these days of drastic curtailment in production, motorists should make certain that they are getting full value for the dollars they spend. Our own engineers have shown exceptional foresight and vision in anticipating this trend. Chrysler has always placed primary emphasis on engineering, and in our current model, they have incorporated several engineering advancements, such as improvements in Fluid Drive and Vacamatic Transmission, increased horsepower with greater fuel economy, a new Floating Ride, and many other features that will keep our cars modern for a long time to come. These features, together with the Thunderbolt styling, borrowed from Chrysler's "Car of the Future," enable us to offer motorists a product that is soundly engineered, and soundly built for the years ahead."

Take Your Birth Certificate

A hint to those who want to help their country was given today by Navy recruiting officers.

"Take your birth certificate or a baptismal record with you when you go to the recruiting office," the announcement said. "It will save you time and enable the recruiting officers to speed their work to meet the emergency.

"Recruiting stations are crowded with applicants. Even though the Navy department reduced drastically the amount of paper work connected with enlistments, the recruiting officers are still swamped. You will help the nation if you help them out by taking evidence of your date of birth to the recruiting office."

If we bear this in mind, I think we shall have a greater sense of responsibility about the preservation of our freedom today.

Mr. Sandburg's second pledge reads as follows: "I pledge myself to do a little thinking every day about the need of discipline and how, in a time of national danger more than ever, my own rights as a citizen are tangled and interwoven with the rights of others and these rights always deserve a decent respect."

HEALTH PROBLEMS

In New York city I went to America's Town Meeting of the Air. I enjoyed the program very much. As so often happens, I felt that many sides of the problem of health could not be covered, even in as long a period as we had on the air.

One thing I felt needed emphasis, namely, that the workers themselves, through their labor union organizations, are doing a great many things to improve their health. It seems to me that the employer has an obligation to use every safety device possible to prevent accidents and has an obligation to initiate other programs, with the idea of social welfare always in the background and the realization that health is a stepping stone to all real welfare and security.

D. C. Police Officers On Full Time Schedule

While Governor Culbert Olson officially proclaimed the existence of a state of emergency in California, the Daly City Police and Fire departments were placed on a wartime schedule, this week.

Chief of Police James G. Reardon, co-ordinating with the Civilian Defense council, announced a seven day week schedule for all police officers in Daly City for the duration of the emergency. Reardon mobilized 150 auxiliary police officers from the civilian volunteer files, divided the city into eight sections, and placed an officer of the regular force in each section. Under the officer is a squad of volunteers to assist in blackouts and other emergencies.

Reardon warned that anyone that was arrested for signaling a false fire alarm would be punished to the full extent of the law.

Chief A. P. Chesney, functioning on a full time schedule as executive of the fire department, has selected 65 auxiliary firemen to work under the regular firemen, in standing by at their stations during blackouts. A squad of fire wardens has been organized for emergencies.

County Defense Program Now Well Under Way

With the establishment of an information center to serve the vicinity, San Mateo county's civilian defense program is well under way this week, according to A. H. Quirmbach, Daly City's representative to the organization.

The information center was established at Burlingame, and the station is equipped to inform local communities of the county in defense matters. Any information that can be made public concerning the defense preparedness of the county can be obtained here.

A public speakers bureau was also organized in San Mateo county. Object of this group is to make an appeal to the county for more volunteers.

The county organization is making plans to unify the efforts of law enforcement bodies in the co-ordination of the entire program.

Street Car Runs Away In Blackout

(Continued from Page 1)

the ambulance. Minor injuries to George Brooks, 136 Miriam street, and Richard Peterson, 86 Hillcrest drive, passengers in the ambulance, and considerable damage to the vehicle were results of the trolley accident.

At this point, Chief James G. Reardon and Sergenat W. W. Sunderland of the Daly City police department, following behind the ambulance, took up the chase of the speeding street car, which was estimated to be doing from 55 to 60 miles an hour. The trolley also skimmed the top of the police car but the two officers continued the pursuit to a point where the South San Francisco highway, on which they were travelling, parts from the Market Railway. Officers reported that the trolley-car slowed down considerably.

The streetcar finally came to a stop below the South San Francisco-Liepzig junction.

Mrs. Minaberry, who planned to go the other direction in the street car before the Japanese and the streetcar changed her plans, deserves plenty of credit for an example of unconcerned coolness. Mrs. Minaberry was still determined to see her daughter at the hospital, her original mission. So, what does she do when the car stops? With not as much as a backward look at the pesky vehicle, she dug in and scaled a high embankment to the road, where she hailed a passing car and continued her trip.

According to witnesses at the top of the hill, all brakes of the streetcar had been set, so the unscheduled trip in the black night remains a deep, dark mystery.

Judge Fines Bertelsen $100

John Frederick Bertelsen, San Bruno, appearing in the municipal court of Daly City, Friday, before Judge L. G. Hardy, was fined $200, $100 suspended, on a drunken driving charge.

Sergeant W. W. Sunderland and Officer George Hopman of the Daly City Police department made the arrest of Bertelsen following an accident, November 21, at 6:20 p. m. when Bertelsen's machine struck down a 79 year old Daly City woman, Mrs. F. A. Busse and her grandson William Johnson, 246 Miriam street. The accident occurred as they were alighting from a street car at the corner of Mission street and Westlake avenue, and Mrs. Busse's death took place three hours later at the Villa sanitarium.

The decision of the court came after hearing the testimonies of Officer Hopman and Bertelsen's attorney, William Farnum White. The defense entered a plea of guilty at the outset of the trial.

In addition to these major public events, most organizations are holding Christmas parties for the children of their members. Families are trimming trees and buying gifts as usual.

How To Have A Safe Christmas

1. Locate your tree a safe distance from open fireplaces, curtains, drapes, and have it well braced. Flameproof all trees, wreaths, and trimmings, and, if possible, use metal tinsel, glass ornaments, or asbestos wool to decorate the tree. (Do not use cotton.)

2. Do not use cheap electrical equipment—it may be costly in the end—and have a competent electrician check your electrical system for proper fuses and overloads.

3. Keep celluloid ornaments or other inflammable trimmings, if used, away from electric light globes or open flames, and do not use LIGHTED CANDLES on or about your tree.

4. Never use wax, lacquer or any inflammable material on trees, leaves or wreaths to make them more attractive—they are potential fire hazards.

5. Use precautionary measures in smoking about the house, as at this time it contains much more inflammable material than usual, as well as many more people.

6. Extinguish cigars and cigarette stubs before discarding.

7. Remove Christmas tree and other usless inflammable material from your home immediately at the end of the holiday season. A serious fire may result from their storage. Do not attempt to burn wrappings, boxes in open grates.

8. Be familiar with the location of the nearest fire alarm box. If a fire occurs, hurry to the alarm box, break the glass, pull down on the hook, wait until the fire department arrives, and direct them to the scene of the fire.

Check your chimney for soot. It may cause a fire due to being dirty from long usage.

The Daly City fire department, under the guidance of Chief A. P. Chesney, wishes to extend a happy and enjoyable holiday season to all, with the hope that it will be a SAFE ONE.

it best to suspend the 6:30 p.m. to 9 p.m. hours until after the emergency.

Mrs. O'Rourk reports that, Thursday, the Daly City library was visited by Mrs. John D. Daly, wife of John D. Daly, for whom this community was named.

Kelly Organizes Demolition Squad

Carrying the responsibility of building demolition following an air raid in Daly City, Peter Kelly, city building inspector, is organizing a demolition squad of tradesmen residing in the city, in accordance with the civilian defense program.

Kelly reported that, to date, the volunteer rolls showed a total of 31 carpenters, eleven electricians and seven plumbers. The building inspector estimated the number of building tradesmen in Daly City to be two hundred men, and urged that the balance of this number register immediately with the civilian defense program.

A meeting of the tradesmen was held, Monday evening, at the city hall, and Kelly has set another conference for tomorrow evening.

Since the demolition of a damaged building can be carried out by tradesmen with the necessary experience, this division of the defense preparedness is highly important, Kelly pointed out.

Villa sanitarium, was placed in charge of hospital facilities and medical care. Sixteen doctors and seven dentists were listed in the council's file. The list also includes a roster of ambulance drivers, nurses, and a list of hospitals within close proximity.

R. L. Crane jr., district superintendent of schools and a member of the American Legion, was assigned to first aid training and the organization of first aid squads.

With officers working a full seven day a week schedule for the duration of the emergency, James G. Reardon, Daly City chief of police, reported mobilization of 150 auxiliary police to assist the regular officers. Auxiliary firemen and fire wardens have been organized by Fire Chief A. P. Chesney. Fire wardens saw action with the air raid wardens in Friday's blackout.

Demolition squads, consisting of tradesmen such as plumbers, carpenters, and electricians were assigned to Peter Kelly, city building inspector.

The problem of gas decontamination and bomb removal was placed in the hands of A. H. Quirmbach, local representative to the San Mateo County Defense council. Quirmbach, a chemistry instructor at Jefferson Union high school, has made an extensive study in chemical warfare for many years.

In addition to classifying the volunteers, the civilian defense headquarters also maintain a file of 39 buildings in Daly City and Colma that are considered sound shelters.

Following instructions of the Office of Civilian Defense, the Daly City council plans to drill the various divisions of the civilian defense army in their duties, although the air raid and fire wardens are expected to be carrying out actual duties in enforcing blackouts.

Merry Christmas from Betty Barclay

Here's a tip for harried mothers who find it difficult to get excited youngsters away from their gifts long enough for breakfast on Christmas morning. Instead of dragging the children away from their presents, serve tall glasses filled with Christmas punch from a tray in the living room.

The recipe goes like this: For each serving, beat one raw egg until thick and lemon colored, add one tablespoon sugar and a drop of mint extract, continue beating until sugar is dissolved. Pour into a very tall glass and add one cup canned unsweetened Hawaiian pineapple juice. Stir and serve at once with crisp, hot, buttered slices of whole wheat toast.

Then sit back and relax because, nutritionally speaking, one glass of Christmas punch is well-fortified with minerals, protein, and vitamins and makes a fine foundation for an active day. Canned unsweetened Hawaiian pineapple juice is a good source of vitamins B_1 and C, and an egg supplies protein, minerals, and vitamins A, B_1, and B_2.

You can take time out to open Christmas gifts with the family, even if you're chief cook, if you take advantage of quick-frozen foods, for they are ready to cook or serve just as they come from their cartons.

Peas and Carrots

Drop 1 box (12 ounces) quick-frozen peas and carrots into ¾ cup briskly boiling salted water, bring again to a boil, and boil 5 to 7 minutes, until just tender. Drain if necessary. Season with butter, salt, and pepper. Serves 4. (Use any liquid left after cooking in sauces, soups, or for other suitable dishes.)

Serving suggestions: Quick-frozen peas and carrots may be served with butter or cream, or with a cream sauce; or they may be served in creamed dishes with eggs, mushrooms, or chicken, or combined with other vegetables and with meats, fish, and eggs in salads.

Orange Cranberry Relish Salad

2 oranges
1 lemon
2 apples
1 pound (4 cups) fresh cranberries
2½ cups sugar

Quarter unpeeled oranges, lemon and apples, remove seeds and core and put through food chopper. Put cranberries through food chopper. Combine, add sugar and blend. Let stand a few hours. Use as a relish with meats, hot or cold.

Limas Manhattan

2 cups cooked, dried Limas
1 medium onion, sliced
½ teaspoon salt
⅛ teaspoon paprika
¼ teaspoon mustard
1 cup diced salt pork
1 cup milk

Mix ingredients in order given and turn into a buttered dish and bake 1 hour in a moderate oven, (350° F.)

All American Cheese That Helps In Holiday Entertaining

Whether your holiday plans call for a party or not, you'll want to be prepared for informal entertaining. A stock of assorted dessert cheeses with "made-in-America" labels is a smart and thrifty way to guarantee effortless hospitality on a "help yourself" basis, no matter how many friends may drop in. In spite of the emergency, you'll find an abundant stock of Camembert, Swiss, Brie and Liederkranz cheese this season. Blue cheese has been recently perfected in this country to take the place of Roquefort supplies which war blockades have cut off, and the cocktail cheese spreads include a Blue cheese as well as sharp American, limburger, pineapple, pimento and relish.

If you serve a decaffeinated coffee brew at your Christmas celebration everybody can linger over coveted second cups without worrying over sleeping problems. Here's one combining coffee and chocolate flavors.

Party Mocha

3 cups hot chocolate
1 cup strong decaffeinated coffee
4 tablespoons whipped cream, sweetened

Combine chocolate and coffee and mix well. Top each cup with whipped cream. Serves 4. Remember that decaffeinated coffee, made by pot or percolator, needs slightly longer brewing to bring out its full flavor.

These Magic Cookies Please Boys at Camp

Even a belle who has never cooked before can be sure of scoring a hit if she uses these recipes for crisp, crunchy cookies made by a magically failure-proof recipe with sweetened condensed milk when she packs a gift box for boys in the service.

Magic Peanut Cookies

1⅓ cups (15 oz. can) sweetened condensed milk
1 cup dried apricots
3 cups shelled peanuts
2 teaspoons lemon juice

Blend sweetened condensed milk and apricots which have been washed and put through food chopper. Fold in chopped peanuts and lemon juice. Drop by spoonfuls on buttered baking sheet. Bake in moderately slow oven (325° F.) 20 minutes or until brown. Remove from pan at once. Makes about 36.

Peppermint Rennet-Custard

1 pkg. raspberry rennet-powder
1 pint milk
⅛ pound peppermint stick candy

Crush candy into fine crumbs and let stand in milk in refrigerator for one hour. Make rennet-custards according to directions on the package. Set out 4 or 5 dessert glasses. Put milk with the peppermint into a saucepan. Warm slowly, stirring constantly. Test a drop on inside of wrist frequently. When COMFORTABLY WARM (120° F.) not hot, remove at once from the heat. Stir contents of package into the milk briskly until dissolved—not over one minute. Pour at once, while still liquid into individual dessert glasses. Do not move until firm—about 10 minutes. Chill. Serve in same glasses. When ready to serve garnish with chocolate sauce or whipped cream and sprinkle with crushed peppermint candies if desired.

Games that all the family can play are an essential part of Christmas holiday fun. A new favorite in Santa Claus' pack is Thumbs Up, the new V for Victory game. The object is to match tiles so that the code symbols V...— are assembled in sequence. The first to accomplish this turns his thumb up. Another favorite family game is Dig, played with a "gold mine" of alphabet letters and miniature miners' picks. Monopoly, the real estate trading game, is a classic favorite that children can enjoy with their parents.

The feast has been scheduled for 6:30 p.m. in Eagles hall. After the dinner, the ladies will exchange Christmas gifts and dancing and music will be enjoyed.

Ticket Trickery

If you can get a traffic ticket "fixed" in your town the chances are that more serious offenses are also being condoned, according to the National Consumers tax commission, whose tax reduction drive seeks additional municipal economy and efficiency.

Campus Fashions

Just a week until Christmas! Have you all your Christmas shopping done? If you have you're fortunate, but for those who have yet to plan their gift list here are a few timely suggestions.

They say "Cleanliness is next to Godliness," so why not give soap for Christmas. Not just and ordinary bar but some of the chic novelty soap boxes that your best girl-friend, sister, mother, aunt, father, brother or uncle would be tickled pink to get.

For mother there is a box of six dainty cakes of soap sachet. You can get them in a variety of scents—apple blossom, ye olde spice, or sweet clover. For your sister's peaches and cream complexion a box of Monterey pine soap is just the thing. It is considered by beauty experts as an excellent cold cream base.

For your jewel of a girl-friend there is a dandy box of soap wrapped and cut to represent precious jewels.

Oh yes! We mustn't forget little sister and brother. Soap this year has been done in attractive juvenile novelties. Just a few of the boxes available are—a merry-go-'round with soap animals, Elsie the cow, Mickey Mouse, or Baa Baa Black Sheep.

Brother or dad would appreciate a box of Castile soap. Popular with the men-folks is the Duffer's dozen, made to resemble golf balls. They're so much like the real ones, he'll have to look twice.

Another hit for mother are the bon-bon guest soaps. They come in a box of twelve, gaily wrapped to make an attractive guest room package.

Snapping dark eyes, rosy cheeks and a sweet personality are all combined in this week's campus queen, Miss Meta Woods.

She was busy sweeping up the auditorium for the Sno-Hop when we spied her. She stands five feet two and a half inches, has dark blonde hair, loves dance music and dancing, and is a sophomore. Her pet peeve is gum chewers.

She is taking a college preparatory course and hopes to attend California. She wants to be a journalist.

So here goes this week's bouquet to Meta.

Music

Howard Miguel and his Indians of Rhythm traveled to Half Moon Bay, Thursday, and presented an assembly for the students of the high school there.

Those taking part were: singers, Elsi Belli, Ardis Hatton, Patsy Nolan, Louise Sowle, Dolores Crane, Pat Moracco, Tillie Castro, Bob Dyer, Harlan Ferrando, Lillian Altman, and Patsy Hatfield; majorettes, Carmel Robin, Isabel Rivera, Laverne Ledesma and drum major, Charles Jackson; jitterbugs, Hank Steel, Dolores Mardecich, Manuel Huerta and Jean Hanselman; members of the band, Elizabeth Blassman, Angelo Ditty, Kieth Fretwell, Eugene Grant, Kenneth Hatt, Robert McCoy, George Perceval, Frank Rivas, Roy DeVincenzi, Ralph Shinazy, Gene Snow, Curtistine Teal, Don Thomason, Gloria Tooth, Fred Waterman, Leslie Whitely, Leo Grider, Bob Sieler and Fred Schmidt.

Yell Leader Tillie Castro led the students in a yell. Members of the Cowboy Band who played were Fretwell, Perceval, Rivas, DeVincenzi.

The students and instructor were picked up at Jefferson by the Half Moon Bay school bus at 10:30 a. m. The students were honored guests at a dinner given for them following the entertainment.

At The District Grammar Schools

At Crocker

Crocker school's girls volleyball team, led by co-captains Dolores Wakefield and Doris Mercurio, scored a 75 to 23 victory over the Woodrow team in a recent game on the Crocker courts.

Crocker boys' volleyball team were nosed out, 37 to 34, by the Woodrow team.

High seventh and low eighth grade classes at Crocker held a skating party on the San Francisco Ice Rink recently.

"The Old South" was the title of a film shown in Room 4 during the social science period. By means of a large map the sections where the large crops are grown were shown to the pupils.

Room 2 students saw a film called "The Romance of Shoemaking."

The boyhood and early youth of George Washington was illustrated to Room 3 pupils when a film of "George Washington Conquering the Wilderness" was presented.

At Woodrow

An exhibit of corn is being displayed in Room 8 in connection with the social studies unit on the American Colonies. The class has studied about how the Indians introduced corn to the Europeans.

A film entitled "The New South" shown in Room 4 demonstrated the transfer of former agricultural districts into manufacturing centers.

Louise Mjehovich was named chairman and Jerry Danford was selected as announcer for a Christmas program which will include original entertainment.

At Jefferson

During the seventh grade literature appreciation period, Lola Casentini's presentation, "A Shepherd Boy of Hungary," was voted the most interesting story.

The motion picture, "The Old South," was shown last week in the seventh grade as a part of their social studies.

Observance of Christmas in foreign lands was a topic of discussion in the sixth grade. Alice Galindo gave an interesting account of the Christmas customs of Mexico.

Anita Richart, who recently returned from a trip to Washington, gave her classmates of the fifth grade an interesting account of her trip.

Recent arrivals at Jefferson from other schools include the following: Carol Bacon, first grade; Robert Hill, second grade; Grace Kosta, a former Jefferson student who has returned; Alice Fobian, kindergarten; James Fobian, second grade; Elmer Fobian, fifth grade, and Joseph Di Giordano, second grade.

HERE ARE AIR RAID ORDERS CLIP THIS

To Every Citizen:

The Civilian Defense Council says to you that your life, the lives of others, may depend upon swift obedience to these instructions: Cut this out. Save it.

In event of an air raid alarm, the first signal you will hear will be three short siren blasts, then a pause of one minute, and three more short blasts. This is the moment of the blackout!

The "all clear" signal will be one long (one minute duration) blast.

This means that the raid is over.

If you are at home when the alarm sounds, stay there. Extinguish all lights. Wait calmly and patiently for the "all clear" signal.

Your house or apartment is the safest place to be.

If the alarm catches you in the street, find a suitable shelter away from flying glass.

If you are in your car, pull to the curb and extinguish lights.

In event of an actual bombing, abandon your car for a shelter.

Above all, keep cool. The enemy wants you to run into the streets, create a mob, start a panic. Don't do it.

Equip your house with bags of dry sand. Keep the garden hose attached. Fill the bathtub, other receptacles, with water at night.

Attack incendiary bombs with sand, a spray from the garden hose (but never a splash or stream!) or a spray from the kind of extinguisher you turn upside down. Splash water on an incendiary and it will explode. Spray it and it will go out in two minutes.

Never leave your house, day or night, without first making sure that all lights are out.

Above all, keep cool.

LET'S HOPE

that incendiary bombs never fall here

BUT

the Civilian Defense Council advises to be prepared with sand to extinguish such bombs if they do fall.

WE FEATURE

immediate delivery of clean, dry sand at only 40 cents per sack.
